

PRESIDENTIAL DECREE No. 1067 December 31, 1976

A DECREE INSTITUTING A WATER CODE, THEREBY REVISING AND CONSOLIDATING THE LAWS GOVERNING THE OWNERSHIP, APPROPRIATION, UTILIZATION, EXPLOITATION, DEVELOPMENT, CONSERVATION AND PROTECTION OF WATER RESOURCES

WHEREAS, Article XIV, Section 8 of the New Constitution of the Philippines provides, inter alia, that all waters of the Philippines belong to the State;

WHEREAS, existing water legislations are piece-meal and inadequate to cope with increasing scarcity of water and changing patterns of water use;

WHEREAS, there is a need for a Water Code based on rational concepts or integrated and multipurpose management of water resources and sufficiently flexible to adequately meet future developments;

WHEREAS, water is vital to national development and it has become increasingly necessary for government to intervene actively in improving the management of water resources;

NOW, THEREFORE, I, FERDINAND E. MARCOS, President of the Philippines, by virtue of the powers in me vested by the Constitution, do hereby order and decree the enactment of the water Code of the Philippines of 1976, as follows:

**CHAPTER I
DECLARATION OF OBJECTIVES AND PRINCIPLES**

Article 1. This Code shall be known as The Water Code of the Philippines.

Article 2. The objectives of this Code are:

- (a) To establish the basic principles and framework relating to the appropriation, control and conservation of water resources to achieve the optimum development and rational utilization of these resources;
- (b) To define the extent of the rights and obligations of water users and owners including the protection and regulation of such rights;
- (c) To adopt a basic law governing the ownership, appropriation, utilization, exploitation, development, conservation and protection of water resources and rights to land related thereto; and
- (d) To identify the administrative agencies which will enforce this Code.

Article 3. The underlying principles of this code are:

- (a) All waters belong to the State.
- (b) All waters that belong to the State can not be the subject to acquisitive prescription.
- (c) The State may allow the use or development of waters by administrative concession.
- (d) The utilization, exploitation, development, conservation and protection of water resources shall be subject to the control and regulation of the government through the National Water Resources Council, hereinafter referred to as the Council.
- (e) Preference in the use and development of waters shall consider current usages and be responsive to the changing needs of the country.

Article 4. Waters, as used in this Code, refers to water under the grounds, water above the ground, water in the atmosphere and the waters of the sea within the territorial jurisdiction of the Philippines.

CHAPTER OWNERSHIP OF WATERS

II

Article 5. The following belong to the State:

- (a) Rivers and their natural beds;
- (b) Continuous or intermittent waters of springs and brooks running in their natural beds and the beds themselves;
- (c) Natural lakes and lagoons;
- (d) All other categories of surface waters such as water flowing over lands, water from rainfall whether natural, or artificial, and water from agriculture runoff, seepage and drainage;
- (e) Atmospheric water;
- (f) Subterranean or ground waters; and,
- (g) Seawater.

Article 6. The following waters found on private lands belong to the State:

- (a) Continuous or intermittent waters rising on such lands;
- (b) Lakes and lagoons naturally occurring on such lands;
- (c) Rain water falling on such lands;
- (d) Subterranean or ground waters; and,
- (e) Water in swamps and marshes.

The owner of the land where the water is found may use the same for domestic purposes without securing a permit, provided that such use shall be registered, when required by the Council. The Council, however, may regulate such when there is wastage, or in times of emergency.

Article 7. Subject to the provisions of this Code, any person who captures or collects water by means of cisterns, tanks, or pools shall have exclusive control over such water and the right to dispose of the same.

Article 8. Water legally appropriated shall be subject to the control of the appropriator from the moment it reaches the appropriator's canal or aqueduct leading to the place where the water will be used or stored and, thereafter, so long as it is being beneficially used for the purposes for which it was appropriated.

CHAPTER APPROPRIATION OF WATERS

III

Article 9. Waters may be appropriated and used in accordance with the provisions of this Code.

Appropriation of water, as used in this Code, is the acquisition of rights over the use of waters or the taking or diverting of waters from a natural source in the manner and for any purpose allowed by law.

Article 10. Water may be appropriated for the following purposes:

- (a) Domestic
- (b) Municipal
- (c) Irrigation

(d) Power generation

(e) Fisheries

(f) Livestock raising

(g) Industrial

(h) Recreational, and

(i) Other purposes

Use of water for domestic purposes is the utilization of water for drinking, washing, bathing, cooking or other household needs, home gardens, and watering of lawns or domestic animals.

Use of water for municipal purposes is the utilization of water for supplying the water requirements of the community.

Use of water for irrigation is the utilization of water for producing agricultural crops.

Use of water for power generation is the utilization of water for producing electrical or mechanical power.

Use of water for fisheries is the utilization of water for the propagation and culture of fish as a commercial enterprise.

Use of water for livestock raising is the utilization of water for large herds or flocks of animals raised as a commercial enterprise.

Use of water for industrial purposes is the utilization of water in factories, industrial plants and mines, including the use of water as an ingredient of a finished product.

Use of water for recreational purposes is the utilization of water for swimming pools, bath houses, boating, water skiing, golf courses and other similar facilities in resorts and other places of recreation.

Article 11. The State, for reasons of public policy, may declare waters not previously appropriated, in whole or in part, exempt from appropriation for any or all purposes and, thereupon, such waters may not be appropriated for those purposes.

Article 12. Waters appropriated for a particular purpose may be applied for another purpose only upon prior approval of the Council and on condition that the new use does not unduly prejudice the rights of other permittees, or require an increase in the volume of water.

Article 13. Except as otherwise herein provided, no person, including government instrumentalities or government-owned or controlled corporations, shall appropriate water without a water right, which shall be evidenced by a document known as a water permit.

Water right is the privilege granted by the government to appropriate and use water.

Article 14. Subject to the provisions of this Code concerning the control, protection, conservation, and regulation of the appropriation and use of waters, any person may appropriate or use natural bodies of water without securing a water permit for any of the following:

- (a) Appropriation of water by means of handcarried receptacles; and
- (b) Bathing or washing, watering or dipping of domestic or farm animals, and navigation of watercrafts or transportation of logs and other objects by flotation.

Article 15. Only citizens of the Philippines, of legal age, as well as juridical persons, who are duly qualified by law to exploit and develop water resources, may apply for water permits.

Article 16. Any person who desires to obtain a water permit shall file an application with the Council who shall make known said application to the public for any protests.

In determining whether to grant or deny an application, the Council shall consider the following: protests filed, if any; prior permits granted; the availability of water; the water supply needed for beneficial use; possible adverse effects; land-use economics; and other relevant factors.

Upon approval of an application, a water permit shall be issued and recorded.

Article 17. The right to the use of water is deemed acquired as of the date of filing of the application for a water permit in case of approved permits, or as of the date of actual use in a case where no permit is required.

Article 18. All water permits granted shall be subject to conditions of beneficial use, adequate standards of design and construction, and such other terms and conditions as may be imposed by the Council.

Such permits shall specify the maximum amount of water which may be diverted or withdrawn, the maximum rate of diversion or withdrawal, the time or times during the year when water may be diverted or withdrawn, the points or points of diversion or location of wells, the place of use, the purposes of which water may be used and such other requirements the Council deems desirable.

Article 19. Water rights may be leased or transferred in whole or in part to another person with prior approval of the Council, after due notice and hearing.

Article 20. The measure and limit of appropriation of water shall be beneficial use.

Beneficial use of water is the utilization of water in the right amount during the period that the water is needed for producing the benefits for which the water is appropriated.

Article 21. Standards of beneficial use shall be prescribed by the council for the appropriator of water for different purposes and conditions, and the use of waters which are appropriated shall be measured and controlled in accordance therewith.

Excepting for domestic use, every appropriator of water shall maintain water control and measuring devices, and keep records of water withdrawal. When required by the Council, all appropriators of water shall furnish information on water use.

Article 22. Between two or more appropriators of water from the same sources of supply, priority in time of appropriation shall give the better right, except that in times of emergency the use of water for domestic and municipal purposes shall have a better right over all other uses; Provided, the where water shortage is recurrent and the appropriator for municipal use has a lower priority in time of appropriation, then it shall be his duty to find an alternative source of supply in accordance with conditions prescribed by the Council.

Article 23. Priorities may be altered on grounds of greater beneficial use, multi-purpose use, and other similar grounds after due notice and hearing, subject to payment of compensation in proper cases.

Article 24. A water right shall be exercised in such a manner that the rights of third persons or of other appropriators are not prejudiced thereby.

Article 25. A holder of water permit may demand the establishment of easements necessary for the construction and maintenance of the works and facilities needed for the beneficial use of the waters to be appropriated subject to the requirements of just compensation and to the following conditions:

(a) That he is the owner, lessee, mortgagee or one having real right over the land upon which he proposes to use water; and

(b) That the proposed easement is the most convenient and the least onerous to the servient estate.

Easements relating to the appropriation and use of waters may be modified by agreement of the contracting parties provided the same is not contrary to law or prejudicial to third persons.

Article 26. Where water shortage is recurrent, the use of the water pursuant to a permit may, in the interest of equitable distribution of the benefits among legal appropriators, reduce after due notice and hearing.

Article 27. Water users shall bear the diminution of any water supply due to natural causes or force majeure.

Article 28. Water permits shall continue to be valid as long as water is beneficially used; however, it may be suspended on the grounds of non-compliance with approved plans and specifications or schedules of water distribution; use of water for a purpose other than that for which it was granted; non-payment of water charges; wastage; failure to keep records of water diversion, when required; and violation of any term or condition of any permit or rules and regulations promulgated by the Council.

Temporary permits may be issued for the appropriation and use of water for short periods under special circumstances.

Article 29. Water permits may be revoked after due notice and hearing on grounds of non-use; gross violation of the conditions imposed in the permit; unauthorized sale of water; willful failure or refusal to comply with rules and regulations of any lawful order; pollution, public nuisance or acts detrimental to public health and safety; when the appropriator is found to be disqualified under the law to exploit and develop natural resources of the Philippines; when, in the case, of irrigation, the land is converted to non-agricultural purposes; and other similar grounds.

Article 30. All water permits are subject to modification or cancellation by the council, after due notice and hearing, in favor of a project of greater beneficial

use or for multi-purpose development, and a water permittee who suffers thereby shall be duly compensated by the entity or person in whose favor the cancellation was made.

CHAPTER UTILIZATION OF WATERS

IV

Article 31. Preference in the development of water resources shall consider security of the State, multiple use, beneficial effects, adverse effects and costs of development.

Article 32. The utilization of subterranean or ground water shall be coordinated with that of surface waters such as rivers, streams, springs and lakes, so that a superior right in one not adversely affected by an inferior right in the other.

For this purpose the Council shall promulgate rules and regulations and declare the existence of control areas for the coordinated development, protection, and utilization of subterranean or ground water and surface waters.

Control area is an area of land where subterranean or ground water and surface water are so interrelated that withdrawal and use in one similarly affects the other. The boundary of a control area may be altered from time to time, as circumstances warrant.

Article 33. Water contained in open canals, aqueducts or reservoirs of private persons may be used by any person for domestic purpose or for watering plants as long as the water is withdrawn by manual methods without checking the stream or damaging the canal, aqueduct or reservoir; Provided, That this right may be restricted by the owner should it result in loss or injury to him.

Article 34. A water permittee or appropriator may use any watercourse to convey water to another point in the watercourse for the purpose stated in a permit and such water may be diverted or recaptured at that point by said permittee in the same amount less allowance for normal losses in transit.

Article 35. Works for the storage, diversion, distribution and utilization of water resources shall contain adequate provision for the prevention and control of diseases that may be induced or spread by such works when required by the Council.

Article 36. When the reuse of waste water is feasible, it shall be limited as much as possible, to such uses other than direct human consumption. No person or agency shall distribute such water for public consumption until it is

demonstrated that such consumption will not adversely affect the health and safety of the public.

Article 37. In the construction and operation of hydraulic works, due consideration shall be given to the preservation of scenic places and historical relics and, in addition to the provisions of existing laws, no works that would require the destruction or removal of such places or relics shall be undertaken without showing that the destruction or removal is necessary and unavoidable.

Article 38. Authority for the construction of dams, bridges and other structures across of which may interfere with the flow of navigable or flutable waterways shall first be secured from the Department of Public Works, Transportation and Communications.

Article 39. Except in cases of emergency to save life or property, the construction or repair of the following works shall be undertaken only after the plans and specifications therefor, as may be required by the Council, are approved by the proper government agency; dams for the diversion or storage of water; structures for the use of water power, installations for the utilization of subterranean or ground water and other structures for utilization of water resources.

Article 40. No excavation for the purpose of emission of a hot spring or for the enlargement of the existing opening thereof shall be made without prior permit.

Any person or agency who intends to develop a hot spring for human consumption must first obtain a permit from the Department of Health.

Article 41. No person shall develop a stream, lake, or spring for recreational purposes without first securing a permit from the Council.

Article 42. Unless otherwise ordered by the President of the Philippines and only in time of national calamity or emergency, no person shall induce or restrain rainfall by any method such as cloud seeding without a permit from the proper government emergency.

Article 43. No person shall raise or lower the water level of a river stream, lake, lagoon, or marsh nor drain the same without a permit.

Article 44. Drainage systems shall be so constructed that their outlets are rivers, lakes, the sea, natural bodies of water, or such other water course as may be approved by the proper government agency.

Article 45. When a drainage channel is constructed by a number of persons for their common benefit, the cost of construction and maintenance of the channel shall be borne by each in proportion to the benefits derived.

Article 46. When artificial means are employed to drain water from higher to lower land, the owner of the higher land shall select the routes and methods of drainage that will cause the minimum damage to the lower lands, subject to the requirements of just compensation.

Article 47. When the use, conveyance or storage of waters results in damage to another, the person responsible for the damage shall pay compensation.

Article 48. When a water resources project interferes with the access of landowner to a portion of his property or with the conveyance of irrigation or drainage water, the person or agency constructing the project shall bear the cost of construction and maintenance of the bridges, flumes and other structures necessary for maintaining access, irrigation, or drainage, in addition to paying compensation for land and incidental damages.

Article 49. Any person having an easement for an aqueduct may enter upon the servient land for the purpose of cleaning, repairing or replacing the aqueduct or the removal of obstructions therefrom.

Article 50. Lower estates are obliged to receive the waters which naturally and without the intervention of man flow from the higher estate, as well as the stone or earth which they carry with them.

The owner of the lower estate can not construct works which will impede this natural flow, unless he provides an alternative method of drainage; neither can the owner of the higher estate make works which will increase this natural flow.

Article 51. The banks of rivers and streams and the shores of the seas and lakes throughout their entire length and within a zone of three (3) meters in urban areas, twenty (20) meters in agricultural areas and forty (40) meters in forest areas, along their margins are subject to the easement of public use in the interest of recreation, navigation, floatage, fishing and salvage. No person shall be allowed to stay in this zone longer than what is necessary for recreation, navigation, floatage, fishing or salvage or to build structures of any kind.

Article 52. The establishment, extent, form, and conditions of easements of water not expressly determined by the provisions of this Code shall be governed by the provisions of the Civil Code.

Article 53. To promote the best interest and the coordinated protection of flood plain lands, the Secretary of Public Works, Transportation and Communications may declare flood control areas and promulgate guidelines for governing flood plain management plans in these areas.

Article 54. In declared flood control areas, rules and regulations may be promulgated to prohibit or control activities that may damage or cause deterioration or lakes and dikes, obstruct the flow of water, change the natural flow of the river, increase flood losses or aggravate flood problems.

Article 55. The government may construct necessary flood control structures in declared flood control areas, and for this purpose it shall have a legal easement as wide as may be needed along and adjacent to the river bank and outside of the bed or channel of the river.

Article 56. River beds, sand bars and tidal flats may not be cultivated except upon prior permission from the Secretary of the Department of Public Works, Transportation and Communication and such permission shall not be granted where such cultivation obstructs the flow of water or increase flood levels so as to cause damage to other areas.

Article 57. Any person may erect levees or revetments to protect his property from flood, encroachment by the river or change in the course of the river, provided that such constructions does not cause damage to the property of another.

Article 58. When a river or stream suddenly changes its course to traverse private lands, the owners of the affected lands may not compel the government to restore the river to its former bed; nor can they restrain the government from taking steps to revert the river or stream to its former course. The owners of the land thus affected are not entitled to compensation for any damage sustained thereby. However, the former owners of the new bed shall be the owners of the abandoned bed in proportion to the area lost by each.

The owners of the affected lands may undertake to return the river or stream to its old bed at their own expense; Provided, That a permit therefor is secured from the Secretary of Public Works, Transportation and Communication and work pertaining thereto are commenced within two years from the change in the course of the river or stream.

Article 59. Rivers, lakes and lagoons may, upon the recommendation of the Philippines Coast Guard, be declared navigable either in whole or in part.

Article 60. The rafting of logs and other objects on rivers and lakes which are flutable may be controlled or prohibited during designated season of the year with due regard to the needs of irrigation and domestic water supply and other uses of water.

Article 61. The impounding of water in ponds or reservoirs may be prohibited by the Council upon consultation with the Department of Health if it is dangerous to public health, or it may order that such pond or reservoir be drained if such is necessary for the protection of public health.

Article 62. Waters of a stream may be stored in a reservoir by a permittee in such amount as will not prejudice the right of any permittee downstream. Whoever operates the reservoir shall, when required, release water for minimum stream flow.

All reservoir operations shall be subject to rules and regulations issued by the Council or any proper government agency.

Article 63. The operator of a dam for the storage of water may be required to employ an engineer possessing qualifications prescribed for the proper operations, maintenance and administration of the dam.

Article 64. The Council shall approve the manner, location, depth, and spacing in which borings for subterranean or ground water may be made, determine the requirements for the registration of every boring or alteration to existing borings as well as other control measures for the exploitation of subterranean or ground water resources, and in coordination with the Professional Regulation Commission prescribe the qualifications of those who would drill such borings.

No person shall drill a well without prior permission from the Council.

Article 65. Water from one river basin may be transferred to another river basin only with approval of the Council. In considering any request for such transfer, the Council shall take into account the full costs of the transfer, the benefits that would accrue to the basin of origin without the transfer, the benefits would accrue to the receiving basin on account of the transfer, alternative schemes for supplying water to the receiving basin, and other relevant factors.

Article 66. After due notice and hearing when warranted by circumstances, minimum stream flows for rivers and streams, and minimum water levels for lakes may be established by the Council under such conditions as may be necessary for the protection of the environment, control of pollution, navigation, prevention of salt damage, and general public use.

Article 67. Any watershed or any area of land adjacent to any surface water or overlying any ground water may be declared by the Department of Natural Resources as a protected area. Rules and regulations may be promulgated by such Department to prohibit or control such activities by the owners or occupants thereof within the protected area which may damage or cause the deterioration of the surface water or ground water or interfere with the investigation, use, control, protection, management or administration of such waters.

Article 68. It shall be the duty of any person in control of a well to prevent the water from flowing on the surface of the land, or into any surface water, or any porous stratum underneath the surface without being beneficially used.

Article 69. It shall be the duty of any person in control of a well containing water with minerals or other substances injurious to man, animals, agriculture, and vegetation to prevent such waters from flowing on the surface of the land or into any surface water or into any other aquifer or porous stratum.

Article 70. No person shall utilize an existing well or pond or spread waters for recharging subterranean or ground water supplies without prior permission of the Council.

Article 71. To promote better water conservation and usage for irrigation purposes, the merger of irrigation associations and the appropriation of waters by associations instead of by individuals shall be encouraged.

No water permit shall be granted to an individual when his water requirement can be supplied through an irrigation association.

Article 72. In the consideration of a proposed water resource project, due regard shall be given to ecological changes resulting from the construction of the project in order to balance the needs of development and the protection of the environment.

Article 73. The conservation of fish and wildlife shall receive proper consideration and shall be coordinated with other features of water resources development programs to insure that fish and wildlife values receive equal attention with other project purposes.

Article 74. Swamps and marshes which are owned by the State and which primary value for waterfowl propagation or other wildlife purposes may be reserved and protected from drainage operation and development.

Article 75. No person shall, without prior permission from the National Pollution Control Commission, build any works that may produce dangerous or noxious substances or perform any act which may result in the introduction of sewage, industrial waste, or any pollutant into any source of water supply.

Water pollution is the impairment of the quality of water beyond a certain standard. This standard may vary according to the use of the water and shall be set by the National Pollution Control Commission.

Article 76. The establishment of cemeteries and waste disposal areas that may affect the source of a water supply or a reservoir for domestic or municipal use shall be subject to the rules and regulations promulgated by the Department of Health.

Article 77. Tailings from mining operations and sediments from placer mining shall not be dumped into rivers and waterways without prior permission from the Council upon recommendation by the National Pollution Control Commission.

Article 78. The application of agricultural fertilizers and pesticides may be prohibited or regulated by the National Pollution Control Commission in the areas where such application may cause pollution of a source of water supply.

CHAPTER **VII**
ADMINISTRATION OF WATERS AND ENFORCEMENT OF THE PROVISIONS OF THIS
CODE

Article 79. The Administration and enforcement of the provisions of this Code, including the granting of permits and the imposition of penalties for administrative violations hereof, are hereby vested in the Council, and except in regard to those functions which under this Code are specifically conferred upon other agencies of the government, the Council is hereby empowered to make all decisions and determinations provided for in this Code.

Article 80. The Council may deputize any official or agency of the government to perform any of its specific functions or activities.

Article 81. The Council shall provide a continuing program for data collection, research and manpower development needed for the appropriation, utilization, exploitation, conservation, and protection of the water resources of the country.

Article 82. In the implementation of the provisions of this code, the Council shall promulgate the necessary rules and regulations which may provide for penalties consisting of a fine not exceeding One Thousand Pesos (P1,000.00) and/or suspension or revocation of the water permit or other right to the use of water. Violations of such rules and regulations may be administratively dealt with by the Council.

Such rules and regulations prescribed by any government agency that pertain to the utilization, exploitation, development, control, conservation, or protection of water resources shall, if the Council so requires, be subject to its approval.

Article 83. The Council is hereby authorized to impose and collect reasonable fees or charges for water resources development from water appropriators, except when it is for purely domestic purposes.

Article 84. The Council and other agencies authorized to enforce this Code are empowered to enter upon private lands, with previous notice to the owner, for the purpose of conducting surveys and hydrologic investigations, and to perform such other acts as are necessary in carrying out their functions including the power to exercise the right of eminent domain.

Article 85. No program or project involving the appropriation, utilization, exploitation, development, control, conservation, or protection of water resources may be undertaken without prior approval of the Council, except those which the Council may, in its discretion, exempt.

The Council may require consultation with the public prior to the implementation of certain water resources development projects.

Article 86. When plans and specifications of a hydraulic structure are submitted for approval, the government agency whose functions embrace the type of project for which the structure is intended, shall review the plans and specifications and recommended to the Council proper action thereon and the latter shall approve the same only when they are in conformity with the requirements of this Code and the rules and regulations promulgated by the Council. Notwithstanding such approval, neither the engineer who drew up the plans and specifications of the hydraulic structure, nor the constructor who built it, shall be relieved of his liability for damages in case of failure thereof by reason of defect in plans and specifications, or failure due to defect in construction, within ten (10) years from the completion of the structure.

Any action recover such damages must be brought within five (5) years following such failure.

Article 87. The Council or its duly authorized representatives, in the exercise of its power to investigate and decide cases brought to its cognizance, shall have the power to administer oaths, compel the attendance of witnesses by subpoena and the production of relevant documents by subpoena duces tecum.

Non-compliance of violation of such orders or subpoena and subpoena duces tecum shall be punished in the same manner as indirect contempt of an inferior court upon application by the aggrieved party with the proper Court of First Instance in accordance with the provisions of Rules 71 of the Rules of the Court.

Article 88. The Council shall have original jurisdiction over all disputes to relating to appropriation, utilization, exploitation, development, control, conservation and protection of waters within the meaning and context of the provisions of this Code.

The decisions of the Council on water rights controversies shall be immediately executory and the enforcement thereof may be suspended only when a bond, in a amount fixed by the Council to answer for damages occasioned by the suspension or stay of execution, shall have been filed by the appealing party, unless the suspension is virtue of an order of a competent court.

All dispute shall be decided within sixty (60) days after the parties submit the same for decision or resolution.

The Council shall have the power to issue writs of execution and enforce its decisions with the assistance of local or national police agencies.

Article 89. The decisions of the Council on water rights controversies may be appealed to the Court of First Instance of the province where the subject matter of the controversy is situated within fifteen (15) days from the date the party appealing receives a copy of the decision, on any of the following grounds; (1) grave abuse of discretion; (2) question of law; and (3) questions of fact and law.

CHAPTER PENAL PROVISIONS

VIII

Article 90. The following acts shall be penalized by suspension or revocation of the violator's water permit or other right to the use of water and/or a fine of not exceeding One Thousand Pesos (P1,000.00), in the discretion of the Council:

- (a) Appropriation of subterranean or ground water for domestic use by an overlying landowner without registration required by the Council.

- (b) Non-observance of any standard of beneficial use of water.
- (c) Failure of the appropriator to keep a record of water withdrawal, when required.
- (d) Failure to comply with any of the terms or conditions in a water permit or a water rights grant.
- (e) Unauthorized use of water for a purpose other than that for which a right or permit was granted.
- (f) Construction or repair of any hydraulic work or structure without duly approved plans and specifications, when required.
- (g) Failure to install a regulating and measuring device for the control of the volume of water appropriated, when required.
- (h) Unauthorized sale, lease, or transfer of water and/or water rights.
- (i) Failure to provide adequate facilities to prevent or control diseases when required by the Council in the construction of any work for the storage, diversion, distribution and utilization of water.
- (j) Drilling of a well without permission of the Council.
- (k) Utilization of an existing well or ponding or spreading of water for recharging subterranean or ground water supplies without permission of the Council.
- (l) Violation of or non-compliance with any order, rules, or regulations of the Council.
- (m) Illegal taking or diversion of water in an open canal, aqueduct or reservoir.
- (n) Malicious destruction of hydraulic works or structure valued at not exceeding P5,000.00.

Article 91. A. A fine of not exceeding Three Thousand Pesos (P3,000.00) or imprisonment for not more than three (3) years, or both such fine and imprisonment, in the discretion of the Court, shall be imposed upon any person who commits any of the following acts:

1. Appropriation of water without a water permit, unless such person is expressly exempted from securing a permit by the provisions of this Code.
2. Unauthorized obstruction of an irrigation canal.
3. Cultivation of a river bed, sand bar or tidal flat without permission.
4. Malicious destruction of hydraulic works or structure valued at not exceeding Twenty-Five Thousand Pesos (P25,000.00).

B. A fine exceeding Three Thousand Pesos (P3,000.00) but not more than Six Thousand Pesos (P6,000.00) or imprisonment exceeding three (3) years but not more than six (6) years, or both such fine and imprisonment in the discretion of the Court, shall be imposed on any person who commits any of the following acts:

1. Distribution for public consumption of water which adversely affects the health and safety of the public.
2. Excavation or enlargement of the opening of a hot spring without permission.
3. Unauthorized obstruction of a river or waterway, or occupancy of a river bank or seashore without permission.
4. Establishment of a cemetery or a waste disposal area near a source of water supply or reservoir for domestic municipal use without permission.
5. Constructing, without prior permission of the government agency concerned, works that produce dangerous or noxious substances, or performing acts that result in the introduction of sewage, industrial waste, or any substance that pollutes a source of water supply.
6. Dumping mine tailings and sediments into rivers or waterways without permission.
7. Malicious destruction of hydraulic works or structure valued more than Twenty-Five Thousand Pesos (P25,000.00) but at not exceeding One Hundred Thousand Peso (100,000.00).

C. A fine exceeding Six Thousand Pesos (P6,000.00) but not more than Ten Thousand Pesos (P10,000.00) or imprisonment exceeding six (6) years but not more than twelve (12) years, or both such fine and imprisonment, in the discretion of the Court, shall be imposed upon any person who commits any of the following acts:

1. Misrepresentation of citizenship in order to qualify for water permit.
2. Malicious destruction of a hydraulic works or structure, valued at more than One Hundred Thousand Pesos (P100,000.00).

Article 92. If the offense is committed by a corporation, trust, firm, partnership, association or any other juridical person, the penalty shall be imposed upon the President, General Manager, and other guilty officer or officers of such corporation, trust firm, partnership, association or entity, without prejudice to the filing of a civil action against said juridical person. If the offender is an alien, he shall be deported after serving his sentence, without further proceedings.

After final judgment of conviction, the Court upon petition of the prosecution attorney in the same proceedings, and after due hearing, may, when the public interest so requires, order suspension of or dissolution of such corporation, trust, firm, partnership, association or juridical person.

Article 93. All actions for offenses punishable under Article 91 of this Code shall be brought before the proper court.

Article 94. Actions for offenses punishable under this Code by a fine of not more than Three Thousand Pesos (P3,000.00) or by an imprisonment of not more than three (3) years, or both such fine and imprisonment, shall prescribe in five (5) years; those punishable by a fine exceeding Three Thousand Pesos (P3,000.00) but not more than Six Thousand Pesos (P6,000.00) or an imprisonment exceeding three (3) years but not more than six (6) years, or both such fine and imprisonment, shall prescribe in seven (7) years; and those punishable by a fine exceeding Six Thousand Pesos (P6,000.00) but not more than Ten Thousand Pesos (P10,000.00) or an imprisonment exceeding six (6) years but not more than twelve (12) years, or both such fine and imprisonment, shall prescribe in ten (10) years.

CHAPTER TRANSITORY AND FINAL PROVISIONS

IX

Article 95. Within two (2) years from the promulgation of this Code, all claims for a right to use water existing on or before December 31, 1974 shall be registered

with the Council which shall confirm said rights in accordance with the provisions of this Code, and shall set their respective priorities.

When priority in time of appropriation from a certain source of supply cannot be determined, the order of preference in the use of the waters shall be as follows:

- (a) Domestic and municipal use
- (b) Irrigation
- (c) Power generation
- (d) Fisheries
- (e) Livestock raising
- (f) Industrial use, and
- (g) Other uses.

Any claim not registered within said period shall be considered waived and the use of the water deemed abandoned, and the water shall thereupon be available for disposition as unappropriated waters in accordance with the provisions of this Code.

Article 96. No vested or acquired right to the use of water can arise from acts or omissions which are against the law or which infringe upon the rights of others.

Article 97. Acts and contract under the regime of old laws, if they are valid in accordance therewith, shall be respected, subject to the limitations established in this Code. Any modification or extension of these acts and contracts after the promulgation of this Code, shall be subject to the provisions hereof.

Article 98. Interim rules and regulations promulgated by the Council shall continue to have binding force and effect, when not in conflict with the provisions of this Code.

Article 99. If any provision or part of this Code, or the application thereof to any person or circumstance, is declared unconstitutional or invalid for any reason, the other provisions or parts therein shall not be affected.

Article 100. The following laws, parts and/or provisions of laws are hereby repealed:

(a) The provisions of the Spanish Law on Waters of August 3, 1866, the Civil Code of Spain of 1889 and the Civil Code of the Philippines (R.A. 386) on ownership of waters, easements relating to waters, use of public waters and acquisitive prescription on the use of waters, which are inconsistent with the provisions of this Code;

(b) The provisions of R.A. 6395, otherwise known as the Revised Charter of National Power Corporation, particularly section 3, paragraph (f), and section 12, insofar as they relate to the appropriation of waters and the grant thereof;

(c) The provisions of Act No. 2152, as amended, otherwise known as the Irrigation Act, section 3, paragraphs (k) and (m) of P.D. No. 813, R.A. 2056; Section 90, C.A. 137; and,

(d) All Decree, Laws, Acts, parts of Acts, rules of Court, executive orders, and administrative regulations which are contrary to or inconsistent with the provisions of this Code.

Article 101. This Code shall take effect upon its promulgation.

Done in the City of Manila, this 31st day of December, Nineteen Hundred and Seventy-Six.
